### CURBING VIRUS SPREAD

# Cabinet okays ₹15,000 cr for emergency response, health preparedness

New Delhi, April 22

THE CABINET ON Wednesday okayed ₹15,000 crore for 'India Covid-19 Emergency Response and Health System Preparedness Package' to mount an urgent response for containing the spread of the virus in India through development of dedicated treatment facilities and setting up laboratories among others.

The fund will be utilised in three phases.

₹7,774 crore, has been provisioned for Covid-19 emergency response and the rest for medium-term support, ranging from one to four years to be provided under mission-mode approach.

"The key objectives of the package include mounting emergency response to slow and limit coronavirus infection in India through development of diagnostics and Covid-dedicated treatment facilities, centralised procurement of essential medical equipment and drugs, strengthen and build resilient national and state health systems, setting up of laboratories and bolstering surveillance activities and pandemic research," an official statement stated.

These interventions and initiatives would be implemented under the health ministry.

In the first phase, the health ministry with the support of all the other line ministries has already undertaken several activities.

### Punjab seeks financial package from PM

**EXPRESS NEWS SERVICE** Chandigarh, April 22

**IN A LETTER** to Prime Minister Narendra Modi, Punjab chief minister Amarinder Singh has suggested a threepronged strategy to bail out the states from the Covid-19 crisis, including a 3-month special financial package and extension to the 15th Finance Commission till October 2021 for submission of its final report.

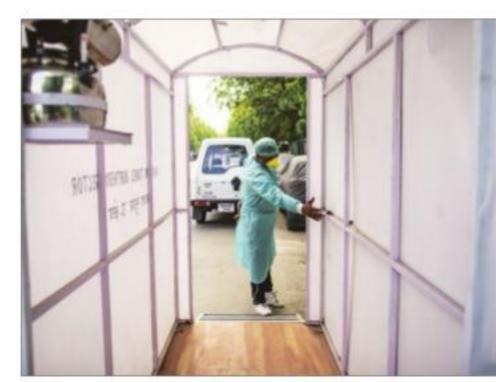

He urged the PM to ask the 15th Finance Commission to review its interim report for 2020-21 in the context of the much lower revenue share for the states compared with what was expected from the earlier projections which as-

sumed 7% growth of GDP. Noting that a zero growth scenario in GDP for India was not unlikely, he said that some analysts were projecting even negative growth. Given the likelihood of very low growth, which was expected to cause the revenue shortfall to last for the whole year, the CM requested Modi to direct the 15th Finance Commission to defer the submission of its full report to October, 2021, when they will be better able to make a realistic assessment of the likely growth of the economy over the next five years.

"Nothing would be worse than getting committed to a five year revenue sharing projection based on unrealistically high growth projections," he warned, suggesting that the Finance Commission could make another interim report for 2021-22.

"With the states continuing to shoulder their committed liabilities and facing new demands on relief, health infrastructure expenditure etc., it is only fair and just that the 15th Finance Commission should be requested to recommend a special Covid-19 revenue grant for the year 2020-21," Amarinder further said.

An additional ₹3,000 crore under the package has been released to states and Union Territories, for strengthening existing health facilities as COVID-19 dedicated hospitals, dedicated COVID-19 health centres and dedicated care centres for the disease.

Detailed guidelines, protocols and advisory for quarantine, isolation, testing, treatment, disease containment, decontamination, social distancing and surveillance have been issued. Hotspots have been identified and appropriate containment strategies are being implemented, the statement said.

"Diagnostic laboratories network has been expanded and our testing capacity is increasing every day. In fact, leveraging on the existing multi-disease testing platforms under National TB Elimination Programme, orders for procurement of 13 lakhs diagnostic kits have been placed to augment COVID-19 testing," it

"All health workers, including community health volunteers (ASHAs) have been covered under the 'Pradhan Mantri Garib Kalyan Package: Insurance Scheme for Health Workers lighting COVID-19'. Personal Protective Equipment (PPE), N95 masks and ventilators, testing kits and drugs for treatment are being procured centrally," it stated.

will be used for mounting robust emergency response, strengthening national and state health systems followed by strengthening pandemic research and multi-sector national institutions and platforms for one-health, community engagement and risk communications and implementation, management, capacity building, monitoring and evaluation component,

# Pune city declared containment zone, attempt to resume industrial activity derails

**GEETA NAIR** Pune, April 22

**PERMISSIONS GRANTED TO** 

the manufacturing industry in Pune district to restart production have been cancelled by the Maharashtra government as the entire city was declared a containment zone and curfew imposed totally restricting people and vehicle movements in the city barring food and medicines. Companies had begun the process of restarting operations and some of them had also got the necessary approvals from the state government's industries department but these will no longer be valid. All the exemptions granted to them from lockdown have been revoked. Besides essentials, everything else will remain shut.

Pune divisional commissioner Deepak Mahiskar said that conditions and measures that existed prior to April 17 would continue. The Maharashtra Industrial Development Corporation (MIDC) will not be granting permission to restart operations till May 3. Their online and offline permission system has been stopped.

After a spike in cases in Pune that saw number of

cases cross 800 with a death toll at 42, the entire district was declared a containment zone this included the areas under Pune Municipal Corporation, Pimpri Chinchwad Municipal Corporation, Pune rural and all industrial zones coming under the MIDC. Pune has been put under strict curfew since April 20.

The Maharashtra state government had announced partial lifting of lockdown and the state industries department officials had a meeting in the morning with industry representative and held discussion on restarting operations from April 21 but the decision got reversed by Tuesday evening. Alakesh Roy, chairman of

the CII Pune Zonal council, and MD Zamil Steel India, said few companies had got approvals but they were surprised to get the new orders under under which those approvals stand withdrawn.

"We will not be able to start operations and there is no clarity on whether this will last till April 27 or this will go on further," Roy said. Transport movement, barring essentials, has also been stopped, so the manufacturing industry will find it difficult to restart operations, Roy said. The industry

also wants the government to revoke the orders which will force companies to stop operations for three months even if one person in the factory is found to be Covid-19 positive and this was not acceptable to the industry as it was not a factory issue but a health issue, Roy added. Companies have paid their employees and workers March 2020 salaries but they are not sure about April and we could expect some kind of deferral in the April salaries, he further said.

Arun Jethmalani, MD, ValueNotes, a research and consulting firm, said some consistency was needed and you cannot ask companies to open one day and close the next day.

It will become difficult for companies and they will have to lay off people or cut salaries though some big companies could manage but their suppliers have already started laying off people and are shutting, he said. By shutting companies the disease will not go away so might as well start in some fashion else we will have a different magnitude of problem and lot of social pressures. The path has to be clear and governance transparent, he suggested.

## Companies raise nearly ₹52,000 cr on BSE Bond platform during lockdown

PRESS TRUST OF INDIA New Delhi, April 22

INDIAN COMPANIES RAISED nearly ₹52,000 crore from commercial papers and corporate bonds by using BSE's Bond plat-

form during the lockdown period. During the lockdown period starting March 23 till April 20, BSE Bond platform has helped in raising funds worth ₹26,666 crore from commercial papers and ₹25,323 crore from medium and long term bonds, the exchange said in a statement. The issuers included six pub-

lic sector companies and 21 private sector firms for commercial papers, and three public sector companies and 15 private sector firms for medium and long term bonds, it said.

BSE Bond platform allows

corporates to remotely set up their issues and open for subscription seamlessly.

The investors can give their bids online and the settlement takes place in an automated way through Indian Clearing Corpo-

ration (ICCL). During financial year 2019 20, the platform was used by 116 issuers for garnering over ₹4.33 lakh crore from commercial papers, and by 121 issuers for raising bonds worth ₹3.36 lakh crore.

The BSE Bond platform was launched on July 1, 2016 to facilitate online bidding for private placement of debt securities.

The platform, which allows all categories of investors to place bids, helps bring in transparency and efficiency in price discovery for private placement of debt securities.
